Title

Mixture of self-invertible inverse latex and a powder  
for cosmetic or pharmaceutical use; use as texturizer.

Abstract

Composition consisting essentially of a mixture  
containing:

- from 1% to 90% by weight and preferably from 5% to 80% by weight of at least one liquid compound composed of a polymer in inverse emulsion;

- from 99% to 10% by weight of the mixture, and more preferably from 20% to 95%, of a cosmetically or pharmaceutically acceptable powder. Use of the composition as a texturizer in foundations, makeup powders, mascaras or lipsticks, emulsions, lotions, gels and sprayable formulations or in solutions impregnated on fabrics or paper and more particularly on towelettes or on complexion corrector papers.
